Job Title UX-UI Designer

Job Type Full Time

CBS Business Unit CBS Interactive

Sub-Business Unit CBSi CBS Entertainment

Location CA-Los Angeles

About Us

CBS Interactive, a division of CBS Corporation, is the premier online content network for information and entertainment. With more than 250 million people visiting its properties each month, it is a top 10 Web property globally and a top 5 Web property in the U.S. in terms of unique video viewers. Its portfolio of leading brands, which include CNET, CBS.com, CBSNews.com, CBSSports.com, GameSpot, TV.com and Last.fm, span popular categories like technology, entertainment, sports, news and gaming.

Job Description

CBS Digital Platforms, a division of CBS Interactive, is seeking an experienced UX Designer that can think creatively and conceptually using UX best practices to build cutting edge cross-platform interactive entertainment products for some of televisions' most popular shows like NCIS, Big Bang Theory, and Survivor. The person in this position will be responsible for working with stakeholders and driving the user experience of products for core CBS DP initiatives and features across desktop and mobile.

Work with product teams to grow early concepts into engaging user experiences

Create interaction models, mockups, wireframes, and layouts that promote ease of use and optimize how consumers interact with all new products and features

Prepare prototypes for the new product applications and features

Create visual components for the mobile screens

Analyze analytics and qualitative data from user research and iterate product

Complete trend landscaping and competitive analysis

Required Qualifications

Extremely motivated and detail-oriented individual who is energized by big challenges

Excellent communication and interpersonal skills

Extremely knowledgeable and on the cutting edge of interactive desktop, mobile web, and mobile applications

Solid understanding of user interaction design tools and technique

Experience creating sitemaps, user flows, wireframes, prototypes and necessary functional/user experience documentation.

3+ years of experience in UX for large scale cross platform applications.

Ability to work well under pressure and manage multiple tasks simultaneously

Proficient in MS Office, including MS Project, Excel and Powerpoint or iWorks

Suite (Keynote), Visio, Omnigraffle, Axure, Balsamiq or other tool for wireframing.

Familiar with analytics tools such as Google Analytics and Omniture. Familiar with XML, HTML, and PhotoShop.

Experience working with Flurry, AdMarvel, Omniture, DART, thePlatform or comparable systems is a plus.

Knowledge of iOS, Android, Windows, and Windows Phone 8, and Blackberry 10 platforms. Experience working with project management processes and systems such as Agile, JIRA, and Asana

Must successfully pass a background check

In addition, CBS will be guided by applicable federal, state and local laws when considering for employment qualified applicants with criminal histories.

EEO Statement *Equal Opportunity Employer Minorities/Women/Veterans/Disabled*
