

ElimiMAJOR

Sometimes students are unsure about what major to choose. We are often clear about what we **DON'T** want as a major. Review the list of majors below and **cross out** all majors that are not interesting to you. Review the remaining majors, and **CIRCLE** your top **3 MAJORS** that you would like to research. Put them in order of interest - number one would be your most interesting of the three; number three would be the least interesting.
