

Undocumented Ally Contract

As an Undocumented Ally I agree to the following:

- *I will respect an individual's right to privacy, as stipulated in the Undocumented Ally Training.*
- *I will refer individuals when appropriate to the proper resources and referrals that are known to me and follow through to make sure the referral was effective.*
- *I will display my Ally decal in a visible place.*
- *I will not engage in inappropriate relationships with individuals seeking help through the Undocumented Ally Program.*

As an Undocumented Ally, I aspire towards the following:

I, _____, hereby have permission to be imperfect when I encounter someone who is different from me. It is OK that I do not know everything about immigration policies. It is also OK if, at times, my lack of knowledge shows. I know that I can seek information and that I will never knowingly advise students to compromise their status.

I have permission to ask my peers questions that might appear naïve. I have permission to be honest with myself about my feelings. And I have permission to struggle with these issues and to be honest in my self-exploration.

I am committed to educating myself and others about discrimination in all its forms, and to combating these prejudices in others.

I am committed to working toward providing a safe, confidential support network for members of the undocumented community.

And, I am committed to treating everyone, regardless of their immigration status, gender, ethnicity, age, religion, socioeconomic status, physical or mental abilities, and sexual orientation, with the dignity and respect they are entitled to as human beings.
